We are looking for a full-time nanny for our two year old son. Someone kind, flexible on hours/travel, and nearby preferable! M-F, occasional nights possible and occasional travel (mountains, beach, NYC, etc). Any recommendations, please email me at fienning@gmail.com as soon as possible- we are making a decision in the next week (pre-Thanksgiving 2013), so if you're reading this after that, no need to let us know! Thanks, Ted & Molly

I agree with Craig's recommendation of wunderground.com. I've used it for years and Jeff Master's blog is great. I have found another site, www.intellicast.com recently, and it appears to be good too. Additionally, for great offshore information, you can access the National Data Buoy Center page from the NOAA. The buoys are located up and down both U.S. coasts. The one offshore Charleston is the Edisto buoy ([http://www.ndbc.noaa.gov/station\\_page.php?station=41004](http://www.ndbc.noaa.gov/station_page.php?station=41004)). The buoys report hourly weather information like wave height, period, wind speed, etc. As a hurricane approaches, it is fascinating to 'see' not only the hourly change in data, but also how other buoys are influenced hundreds of miles away.

Martha,

I find the Weather Underground (<http://www.wunderground.com/hurricane/>) tropical storm page and the National Weather Service (<http://www.nhc.noaa.gov/>) page to be good sources of info. Most pages just re-issue the NWS forecast in some form or the other. The NWS forecasts are updated periodically and the website has a good set of graphics that are pretty easy to interpret. The Weather Underground site is good too. The blog by Dr. Jeff Masters is very good for getting an in-depth analysis of the various invests and storms. The Weather Underground site also includes all of the runs of the various storm models which can be interesting. The last one I use is the Navy's weather service out of Norfolk, VA ([https://www.fnmoc.navy.mil/tcweb/cgi-bin/tc\\_home.cgi](https://www.fnmoc.navy.mil/tcweb/cgi-bin/tc_home.cgi)). They produce a very useful graphic that is a little different from the NWS's, it includes a synopsis of the storm's closest approach to various east coast cities, which in combination with wind force forecasts can give you a very good idea when winds of various speeds will hit. The graphic is a map of the US east coast and will include the forecast track of the storm and other info. Have fun and let me know if you have any questions interpreting all of the info available.

I need a young adult who wants to earn some extra spending money to help take out our garbage (and possibly recycling) when we are not in SC. My wife and I live at 171 Ionsborough. We are often in town, but usually not on Mondays when the garbage or recycling is picked up. We'd be willing to pay someone to take out the garbage can, and recycling if applicable, to the street after we have been in town, and to return it (or both receptacles) to our backyard after the pickup. If you know of a responsible young adult to do this, please email me at barry.allen@sageontheweb.com, or call my cell at 908-759-5761. Thanks in advance for any suggestions for this work.

Jane,

**Duval ACKER**

I'm a licensed contractor who lives on Eastlake Road, providing every service for your home you can think of. With over 35 years of building and renovating experience, you'll find me capable of pretty much any project you may have around your home. My company, Kitchens By Design, offers me time to take these projects on between kitchen and bathroom renovations. I'd love to talk with you about your needs - please just call me, Tom Acker, at 200-0596.

Thanks! I hope to meet you soon. Tom

Dear Skip,

**Duval ACKER**

Our company, Kitchens By Design, has 33 years of experience in kitchen renovations, and not just providing cabinetry. We're licensed contractors; we plan the space to make the most of it for your needs, order whatever is needed to complete, work with your investment budget, and Tom, our other owner, installs it meticulously. Our work includes countertops, electrical labor & lighting fixtures, plumbing and fixtures, curtains, furnishings and everything else needed. Our subcontractors are the best and work along with us with the same work ethic and care of our clients. In addition, we honor our work with a warranty, and all products we offer have manufacturer's warranties to back us up still further.

Want to talk with others who've experience excellence? We'd love to give you a list....call us at 849-6890 or email [kitchensbydesign@comcast.net](mailto:kitchensbydesign@comcast.net). I know you would enjoy the experience of working with professionals who can handle the entire project with one point of contact.

Best wishes, Tom & Duval Acker

I have been working at the Low Country Food Bank with a young woman who has started up her own Personal Chef business. She and her husband has started and ran an organic food takeout and delivery business in Denver, Colorado for several years. They sold the business and moved to Charleston several months ago. They are renting a house in downtown Charleston.

Becky is a very talented cook and I would like you to take a look at her web site which just came on line this week. It describes her offering and services in detail. It also displays a number of her recipes. It is a beautiful website and she offers personalized chef services to individuals. The food preparation is done in each customer's home. She consults with the client to develop menu or menus, food preferences and any diet restrictions due to allergies or health reasons! The client is expected to provide and pay for the groceries. She will do an individual meal, meals for the family or dinner.

DESPERATELY SEEKING ADVICE RE CELL PHONE PURCHASE AND SERVER CHOICE ! I am reluctantly entering the 21st century and have decided I need a 'real' cellphone. I DON'T like cell phones (or any phones). I would like the phone mostly for road trips. I would rarely use one, so I am thinking about a no contract plan. I would like: a phone that has good service coverage. I probably wouldn't text; it would be convenient to have a camera; and I would love some kind of GPS. I would probably use just a few apps. I would especially love your advice on getting this.....I really don't want to be tied down to a 2 year contract. Thanks ! Lydia Engelhardt

I use this franchise in Dallas for my mother and she has been extremely pleased with them. After my recent visit to Dallas, I returned to MP and discovered that a cleaning authority franchise opened here about one year ago. Owner is David Floyd 793-4271. Go on-line to see the services they offer. We just started with this company but first impressions have been outstanding. We are looking for a creative landscape designer who can help us design and then complete the plans for a courtyard in our back. Project would involve pavers, a water interest of some kind and plantings.

Linda, I think Melinda Wrenn was doing some physics tutoring awhile ago. You may want to check with her.

There is a 'Site Search' feature on the website located at the end of the horizontal menu line. If you type in 'plumber,' several references will come up that you can get leads from. Guffin's came up a few times.

Peter Perera was right! Guffin Plumbing is excellent. William 'Chip' Guffin is a reliable and efficient master plumber. However, we need a better way of cataloging referrals. We had to search way back in the archives of the message board to find Peter's recommendation. The phone number for Guffin Plumbing is (843) 513-4386

Based on my dog's behavior, I am concerned that there may be something living in my crawl space. (Several years ago, a possum had taken up residence there and had to be removed.) Has anyone had experience with an animal/pest removal service that they can recommend? The folks that helped me before don't seem to be in business now. Thanks.

My personal assistant, Becky Rivers is wonderful and is seeking another person or two to provide housecleaning, grocery shopping, picking up dry cleaning and drop off and other personal errands. Becky walks my dog and house sits when I am away. As an added bonus, her partner Larry Nelson takes care of my home repairs and maintenance. To reach Becky and Larry call 843-323-1991. Any questions call Debra Nelson 843-884-2444.

We just used Movers and Groovers to move into I'On. They have a clean cut crew what did a good job - and they were the most competitive, pricewise.

We've used Dan Gosh for the past few years and he does a great job. He's very respectful of plants and surroundings. He uses less chemicals and less pressure, so the paint job doesn't suffer as much. We highly recommend him. His number is 843-813-6866.

I had a great experience with Chris Fry this summer (no relation) of Irrigation & Lighting Specialties. I got his name from a landscaper and he came out for an emergency service. He ended up re-routing a major portion of our side garden,

Deborah LACOMBE

installed an extra light (does lighting as well) and I thought the charge was minimal. I think he used to have a landscaping service and now just focuses on irrigation and lighting. But his knowledge of plants comes in handy.

His number is 843-224-4846. Highly recommended.

We plan to add a fence in our backyard soon, so we get a dog for the kids. After we get Chad's blessing (IDC) first of course. Can anyone recommend a good fence contractor?

We're looking for an occasional house sitter who will stay at our house when we go out of town and will mind the house, plants, and our 5 year old Golden Retriever, Abby. Will pay very fairly for someone reliable and responsible.
