

# Maintenance & Repair Application Checklist for Screening Trash & Recycle Service area when...

1) Fencing screen will exactly match an existing fence on your property.

## OR IF

2) Hedge screen correctly installed using one of the approved hedge screen plants listed below.

### Required application items:

\_\_\_\_\_ Provide **pictures** of house or outbuilding elevations and surrounding area of proposed screening location.

\_\_\_\_\_ **Written confirmation** that the proposed trash & recycle location with screening is located on your property.

### Provide the additional requirements listed below that are applicable to the request:

\_\_\_\_\_ If fencing screen will be exactly matching an existing fence on the property (color, style, construction, material, etc.) also provide the following:

- Detailed pictures of existing fence showing its construction, design, gate details, etc. Confirm if using the same gate hardware as existing or provide details and pictures of proposed gate hardware.
- Provide all dimensions of enclosure.
- Provide detailed pictures that clearly indicate the location/placement of proposed screen structure and surrounding area.

\_\_\_\_\_ If installing a hedge screen from the pre-approved hedge plant list (see below) also provide the following:

- The hedge plant name & quantity.
- Confirm that you will install the recommended gallon size & spacing.
- Provide detailed pictures that clearly indicate the location/placement of proposed hedge screen plants and surrounding area.

### !On Approved Hedge Plants for screening trash & recycle.
